

The Right Choice

From Every Angle

The renaissance in the popularity of billiards offers you a world of new opportunities. More and more upscale locations are realizing that a coin-operated pool table is a great way to attract patrons and build profits. But these locations won't settle for a standard-issue coin table. They demand the best in quality, selection and style- and you can provide it with tables from Global.

GLOBAL BILLIARD MANUFACTURING. WHEN YOU CONSIDER EVERY ANGLE, IT'S CLEAR THERE'S NO BETTER CHOICE.

Black laminate finish also available

THE CHALLENGER

- Classic styling to suit a wide variety of locations.
- Mahogany or black laminate finish
- Textured black laminate top rail
- 7' and 8' models

THE CONCORDE

- The best-playing coin-operated table on the market
- Steel cylindrical leg with commercial grade leveler
- Textured black laminate finish
- 7', 8' and 9' models

The 9' Concorde features a three-piece 1 1/2" slate framed with 3/4" hardwood poplar, and 24 rail bolts. The result is a much tighter rail providing for superior ball response found only on professional non-coin models.

Our lineup of distinctive pool tables includes designs to suit every decor, from contemporary to elegant. However, the beauty of our tables is more than skin deep. These are tables built to last, with features such as heavy-duty chromed corners and leather pockets double-stitched and riveted for durability. In addition, we design our tables for easy maintenance to help you enjoy years of trouble-free operation – and added profits.

THE OLD TIMER

- Design accents perfect for locations with Western decor
- Mahogany laminate finish
- Hardwood top rail with a durable high pressure laminate finish
- Adjustable commercial grade leg leveler
- 7' and 8' models

THE BUCKINGHAM

- A modern descendant of Old English design
- Cherry laminate finish
- Hardwood top rail with a durable high pressure laminate finish
- Solid maple leg with adjustable commercial grade leveler
- 7' and 8' models

THE WINDSOR

- Elegant styling suitable for the most upscale locations
- Stained and Lacquered oak-veneer cabinet
- Hardwood top rail with a durable high pressure laminate finish
- Solid oak carved leg with adjustable commercial grade leveler
- 7' and 8' models

Designed to stand up to the toughest customers.

Reliable magnetic cue ball separator has no moving parts and separates both magnetic and oversize cue balls. At the end of the game, the cue ball locks in the table, minimizing theft.

Die-cast metal corners are polished, buffed and triple plated for brilliance and durability. The corners bolt through the solid hardwood Poplar rails for superior structural integrity, and ball response that is consistently true.

Extruded plastic ball runs feature enlarged cutouts allowing chalk to fall through at all angles, reducing service calls.

Modular coin box housing eliminates expensive repairs. The coin chute door and housing are constructed of heavy gauge metal, then powder coated for superior durability. As an added deterrent to break-ins, the internal cash box housing is also constructed of heavy gauge sheet metal and features a separate lock.

On our Challenger model, reinforced legs are made of injected ABS and feature an adjustable commercial grade leveler. The Buckingham and Windsor leg levelers are constructed of high impact Delrin.

Additional Quality Features:

- ▶ Underside trap door provides for easy clean out, as well as access to items lost in the table.
- ▶ Switch from "coin operation" to "coin free operation" with the turn of a key. Great for tournaments, promotions, or renting the table by the hour.
- ▶ Heavy gauge steel crossbeam slate supports ensure a level playing surface
- ▶ High quality plywood construction with a burn and scratch resistant high pressure laminate finish (lacquer finish on Windsor)
- ▶ Full profile K-66 cushions constructed with a vulcanized control fabric and an impact groove provide exceptional ball response

Available on all our models...
